CLINICAL PROGRESS IN THE LAST 12 MONTHS

DECEMBER 2025

5 TRIALS PRESENTED AT GLOBAL CONFERENCE

Supported by Cure Leukaemia Research Nurses were presented at the American Society of Haematology conference in Florida, which brings together clinical minds from across the world, with data from clinical trials making an impact on a global scale.

MARCH 2026

TP53 Initiative

We are proud to announce our funding and support for the TP53 Initiative, a groundbreaking clinical collaboration, registry database and biobanking initiative designed to transform outcomes for patients with TP53-mutated myeloid malignancies who are eligible for stem cell transplantation. Thanks to your support our funding will directly contribute to the formation of the TP53 Registry.

AMMO TRIAL UPDATE SCAN TO HEAR FROM

Dr. Dan Wiseman, from The Christie Hospital, Manchester who presented the AMMO Phase 2 Clinical Trial at ASH.

AUGUST 2026

TOPICAL Trial

The trial, called TOPICAL, is led by The Christie NHS Foundation Trust and will take place at five hospitals across the UK where we provide funding.

The TP53 Initiative is a vital step forward for a patient group that has historically had very poor outcomes.

DR. MILI SHAH
CHIEF INVESTIGATOR

Ultimately, our aim is to help more patients benefit from these life-saving therapies while reducing the burden of treatment on patients, families and the NHS.

DR. EMMA SEARLE
CONSULTANT HAEMATOLOGIST
AT THE CHRISTIE MANCHESTER

SYMPTOMS OF BLOOD CANCER:

Hear from some of our patients about their first symptoms.

JENNA'S SYMPTOMS WERE:

Debilitating headaches, bleeding gums, bruising and extreme fatigue.

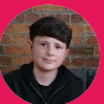

MORGAN'S SYMPTOMS WERE:

Different skin colouring, and feeling out of breath while walking to the train.

HUGHIE'S SYMPTOMS WERE:

Tiredness, aches and pains in his chest, back, knees and ankles.

JUDE'S SYMPTOMS WERE:

Finding bruises all over his legs.

ELEANOR'S SYMPTOMS WERE:

Felt lethargic and experienced breathlessness during everyday tasks.

TOM'S SYMPTOMS WERE:

Finding little lumps on his neck.

MARK'S SYMPTOMS WERE:

Pain across his shoulders, by the end of the week he was just shivering and shaking.

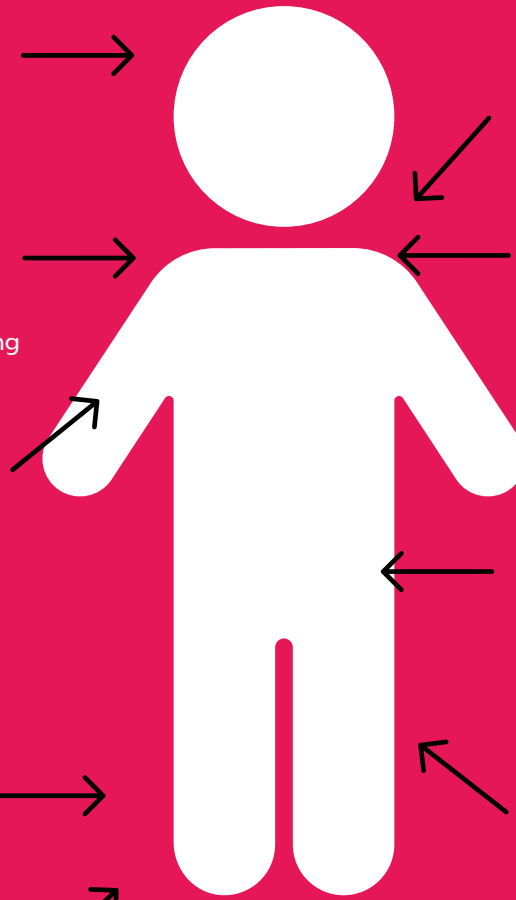

LIZZIE'S SYMPTOMS WERE:

Small red pin-prick dots on her skin and began suffering from lower abdominal pain.

MARK'S SYMPTOMS WERE:

Tiredness, weight loss, or a loss of colour in his skin.
